About Us

JZH is a professional fence manufacturer with 15 years of experience in R&D, design, and production, committed to providing high-quality, integrated fence system solutions to global customers.

The company has obtained 12 Chinese national patents and has been recognized as a National High-tech Enterprise, possessing strong technological innovation capabilities and product development strength.

As an important participant in the industry, we are not only a member of the American Fence Association (AFA), but also participated in the drafting of Jiangsu Province's "Applied technical specification of fabricated metal guardrail for building," playing an active role in industry standard setting.

In the Chinese market, we have established long-term and stable cooperative relationships with large real estate developers such as China Merchants Property Development and Power Construction Corporation of China, accumulating rich project experience and enjoying widespread recognition for our quality.

Our founder, Hunter, currently serves as the Secretary-General of the Fence Branch of the Jiangsu Construction Machinery Metal Structure Association and as an expert on its expert committee, holding significant influence and professional authority within the industry.

We have passed international authoritative certifications such as SGS and BV (Bureau Veritas), and our products meet global quality and compliance standards, satisfying the needs of users in different countries and regions.

JZH adheres to the concept of green environmental protection, supports personalized customization of its products, and has established long-term and stable cooperative relationships with partners in more than 50 countries and regions around the world, winning widespread trust and a good reputation.
